Experience

Feb 2021 - Present

ZaneRay Group – Senior UI Developer

- Lead UI Developer for e-commerce web applications spanning Headless Vue and Shopify implementations.

- Partnered with Creative Directors to develop and implement the Borealis design system, unifying design language and modularizing components across Vue and Shopify applications, resulting in consistent and scalable products, improved cross-team collaboration, and increased profitability.

- Modernized the agency's headless base project by migrating components to Vue 3 and Nuxt 3, refactoring complex components, and improving the design system.

- Collaborated with Design and Project Management teams to determine project requirements, budgets, scope, and analyze technical feasibility, ensuring all projects met UX and accessibility standards and that projects were delivered on-time and within budget.

- Provided code reviews and mentorship to other developers, improving team code quality and consistency.

Dec 2017 - Feb 2021

Ideabar – Senior Web Developer

- Built custom WordPress and Shopify websites tailored to client needs.

- Led the development team, overseeing project planning, execution, and delivery.
